आर्यन सॉफ्टवेयर प्रस्तुत करता है। भारत का पहला बहुभाषी ऑफिस सुट (Office Suite)

शक्ति अपना देश-अपने लोग-अपना पैसा फिर सॉफ्टवेयर पराया क्यो? अपना सॉफ्टवेयर क्यो नहीं ?

A few years-back people used to say that computers work in the English language only. At that time people even feared to touch it. Now **Chennai Kavigal** and **Aryan Softwares** have Introduced **SHAKTI** for bilingual and multilingual typing.

SHAKTI is complete Indian language software for office applications. **SHAKTI** is designed and developed by **Chennai Kavigal**. It is the best bilingual software package available in the current market.

SHAKTI a ground-breaking technology from **Chennai Kavigal**, is India's first software with the entire user interface in an Indian language working in a windows-95-98 2000-Xp environment.

SHAKTI has a number of features to make the use of Indian languages extremely easy. It provides a number of tools to increase the efficiency of the user. These include multilingual Spellchecker, keyboard shortcuts, Find and replace, online keyboard and official language dictionaries.

New technologies like the Internet have been well adopted by **SHAKTI**. It incorporates the facility to send Indian language e-mail without going to a separate editor. Creating WebPages using **SHAKTI** is as simple as creating any other document.

Language intelligence is in built into **SHAKTI** at many fronts so much so that at any given instance it is possible to know in which language the user is working. The multilingual Spellchecker takes an intelligent decision to check the spellings of the text as per the language. The official language dictionaries come handy for official language terminology.

Salient features:

- **Very simple User interface**

Supports MS-Office 95/97/2000/XP, Lotus Smart Suit, Page Maker, Coral Draw, Front Page, Internet Explorer

- **Font Converter**

Font converter is the powerful tool in **SHAKTI** which can convert any TTF font from different softwares like Leap, AkruTi, Akshar for windows etc. in **SHAKTI** font and vice versa.
