

## 2. Reader's Feedback

### Contents

» "... We welcome your efforts in promoting equitable access to information by developing tools and standards supporting content creation in Indian languages and its dissemination in the electronic environment. These experiences could provide useful case studies and practical guidance for other Member States seeking to develop linguistic tools and resources to support information content development in their national languages. We would welcome an opportunity to explore possible cooperation in this regard. A link to the TDIL website is being added to our Observatory on the Information Society. I look forward to further exploring mutually beneficial cooperative efforts.."

**E-mail : aw.khan@unesco.org**

» "... I have much interest and pleasure to write to you. However, I would like that you include my name in the upcoming editorial seminars that would be organised in your country by your Institute. For I am a Secretary-computer typist for the past 10 year with Association National des Comites de Langues Comerounaises (ANACLAC) or national Association of Cameroonian Language Committees (NACALCO). NACALCO had problems in editing books, so it would be a great advantage for me & I will benefit from these upcoming seminars. Another reason is that all your publications that, I have read through are excellently produced ...."

» "...Thankyou very much for sending latest copy of the quarterly VishwaBharat@tdil. We have noted the tremendous strides made in language technologies. We would suggest that a copy each of this useful publication be sent to the following organizations (Gujarati Society, Singapore Telugu Samajam, The Singapore Tamilian Society Singapore Kerala Association) in Singapore which would be the direct beneficiaries/ end users of such technologies here..."

**E-mail : reza@ut.ac.ir**

» "...We read with interest about your initiatives in India, especially the TDIL (Technology Development for Indian Languages) and "Digital Unite and Knowledge for all" projects and the possibility of setting up a Technological Interchange mechanism. We in ILCA are very interested in the advances in language technology that you are making and wish to know more about them, to see how we can apply similar measures here..."
