Introduction

Cyberscape Multimedia Limited is a limited company incorporated under the Company’s Act 1956 on 1st JULY 1996 as a Private Limited Company and later on converted into Public Limited Company on 23rd February 2000.

The main objective of incorporating the company was for the business in Information Technology in a corporate form of business organization. Earlier, the business was carried out under the following firms; namely Aces Technologies and Aces Consultants registered under the Partnership Act on 1st August 1989 and 1st April 1991 respectively.

The above companies in order to synergise the efforts and for consolidation of nationwide activities have decided to convert into a limited company for the corporate governance, the absolute transparency of financial status, accounts etc. which is required when dealing globally. The company has plans to enhance its activities by opening offices in Singapore and USA to cater to the far east and western markets.

Our main areas of work in this field are:

- Creating informative sites for different Corporate houses
- Creating portals and vortals (Vertical Portals)
- E-commerce enabled sites and providing com-solutions
- Content creation in multiple languages
- Implementing multimedia on the web

6. Multimedia Content Creation

Multimedia is an inherent strength of Cyberscape Multimedia Ltd. It has a dedicated team of visual artists, sound artists, designers and multimedia professionals who are engaged in various multimedia productions.

Cyberscape has been creating various 2D and 3D animation based multimedia presentations, both for the web and otherwise, rich in content, quality and speed.

Cyberscape specialises in developing corporate presentations, FLASH & Shockwave enabled websites, touch-screen interface, multimedia CD ROM titles etc.

It has come out with its maiden CD Title: “AKRUTI Shree GANESH” which is a multilingual multimedia interactive CD ROM. Cyberscape is dedicated to the cause of creating multilingual contents with distinct Indian flavour to have a wider reach and cater to a larger audience.

Akruti Ganesh is an effort to bring computing in Indian Languages and Multimedia for everyone by presenting a multilingual, multimedia CD cut in the shape of Lord Ganesha. It blends almost all the available Indian languages with technology, art and information.
To add value to the CD ROM, Cyberscape has clubbed it popular software Akruti Personal (All Language) The software can be used to generate documents in Indian Languages using popular softwares like MS Office, Pagemaker, Corel Draw, Dream Weaver, Netscape Communicator, Internet Explorer, Lotus Smart Suite etc. Use this for Database, web pages, sending e-mails all in your own language.

It also contains things as added utilities:

- Interactive Pooja of Lord Ganesha Pooja in 3 types of format. The first is Interactive. This can be deployed on the web and it is without any audio. The next option is the Namavali where the user can perform the pooja worth 108 flowers for each name and can experience the total virtual pooja experience. The last is Poojan Moderated. This allows the user to choose specific pooja and execute that.

- Stories about Lord Shree Ganesh in various languages.
- Songs and Aartis in with audio and video form in multiple languages.
- Information about famous Ganapati temples.
- Photo Gallery with more than 200 exclusive sketches.
- Games to have fun.
- Wallpapers to create the desired ambience on your desktop.
